LABCOLD™
medical & scientific refrigeration

RLPR0214 Sparkfree Refrigerator

The **Labcold** Sparkfree range is engineered to store flammable materials safely with no sources of ignition inside the chamber. Anything that could cause a spark is located outside of the chamber.

Warning: Do not store open containers of volatile substances in this fridge.

For extra security all sparkfree models are fitted with a built in lock and digital temperature display. The display features high and low audio and visual temperature alarms as standard in addition to a door open alarm. The controller also records the minimum and maximum temperature since the last reset.
