## educational chairs

- Stacking chairs are Severe Education use quality, FIRA tested to BS4875 (1985) Test Level 5 and the relevant stability test requirements from BS EN 1022 (1997).
- Flame retardant chair models are tested to BS5852 of FT56 Ignition Source 5.
- Five heights shown are determined as 'A to E'. Therefore 'D' size chairs match 'D' size tables, and so on.
- Larger height chairs are available on request (subject to quantities required).
