

The FIBERLite® Guarantee

If your FIBERLite Centrifuge rotor damages your centrifuge under warranty or service agreement, and the manufacturer refuses to honor their warranty or service agreement, FIBERLite will honor all aspects of the manufacturer's warranty or service agreement.

Also, if the manufacturer refuses to cover your centrifuge with a service agreement as requested by you because you have run or intend to run your FIBERLite rotor in their centrifuge, FIBERLite will provide the service agreement coverage* at the cost to you that you would have paid the manufacturer.

We are completely confident in the quality and performance of our innovative centrifuge rotors and, backed by our Guarantee, you can be too.

A handwritten signature in blue ink, reading 'Al Piramoon'.
