FINGERPRINT LIFT SCANNING SYSTEM

Lift-Scan

The high resolution digital scanning system for the capture, processing, transfer and printing of fingerprint lifts

Features include:

- 10 second image capture
- AANSI/NIST compliant images for AFIS systems without the need for intermediate photography
- Output to printer ratio of 1:1
- Full image annotation and marking up facilities
- Veridata integration for complete security
- Performance statistics
- Third level detail enhancement

Lift-Scan

The new low-cost desktop system that speeds up fingerprint examinations

Foster & Freeman's new **Lift-Scan** offers the fingerprint examiner high-resolution digital capture of fingerprint lifts with the facilities for image processing, print-outs and transfer to AFIS systems without the need for intermediate photography.

Lift-Scan is designed to improve efficiency, providing fingerprint experts with the facilities to process lifts quickly at their desk to their preferred specification.

Lift-Scan operates on a standard PC or laptop through a high resolution miniature scanner and can process aluminium clear acetate lifts, aluminium black gel lifts, white gel lifts and black or white powder lifts,

Features include:

- 10 second image capture
- AANSI/NIST compliant images for transmission to AFIS (*UK:Ident1*) systems
- Output to printer at preset 1:1 ratio
- Third level detail enhancement
- Full image annotation and marking of ridge characteristics for court charts
- Complete legal security through the integration of Veridata Idem
- Performance statistics
- Image enhancement to increase image clarity without loss of detail

Systems may be linked to individual desk top printers or networked to one high speed departmental printer producing prints up to 8"x 6"

And, being compact and portable, **Lift-Scan** can be used as a mobile system, to send images directly into an AFIS (*Ident1*) link over 3G/GPRS or wireless network.

Ordering information:

SOFTWARE MODULE & SCANNER

Product Code: LIFTSCAN/SW

Lift-Scan version 1.0 software and A5 desktop scanner.

COMPUTER SYSTEM

Product Code: LIFTSCAN/PENT

Desktop computer, keyboard and mouse with Pentium processor and 17" LCD monitor.

PORTABLE COMPUTER SYSTEM

Product Code: LIFTSCAN/PENT/P

Laptop computer with Pentium processor and 15" screen.

PRINTER: BASIC

Product Code: LIFTSCAN/PRINTB

Continuous-tone thermal dye transfer printer (*pictured*).

PRINTER: PROFESSIONAL

Product Code: DCS3/PRINKO

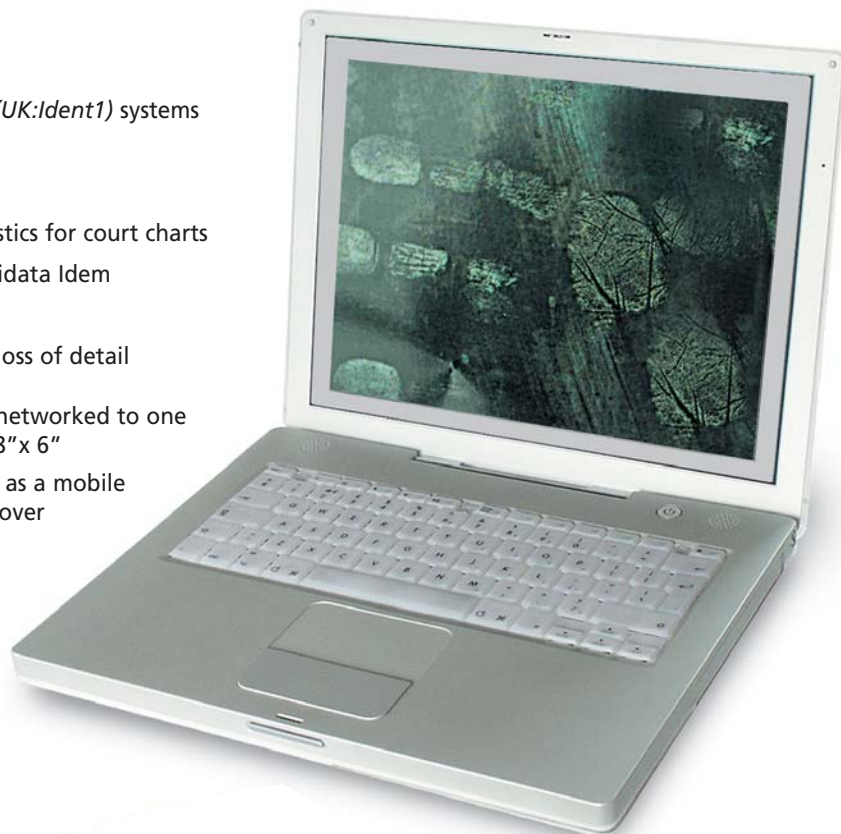

Kodak 6800 Digital Colour Printer.

Optional extras:

IMAGE AUTHENTICATION SOFTWARE

Product Code: DCS3/SWARE

Veridata software provides authentication of original images.

Foster & Freeman Ltd reserve the right to alter the specification of Lift-Scan or any accessories without prior notice.
