

Fit it fast – with Foster - The New Foster FAST FIT Packaged Coldroom

A new 'Off the Peg' range of packaged coldrooms is now available from UK market leaders Foster Refrigerator. This competitive, easy to install range has been designed to minimise turnaround time from order to installation, so guaranteeing a truly Fast Fit.

Foster's Fast Fit Coldrooms are supplied as a complete kit. Coldroom panels, panel mounted, state-of-the-art refrigeration system and shelving are all included in the package at a competitive price. The Fast Fit range is available ex-stock and is extremely easy to install. Simply order the size you need, take delivery of your coldroom, click the panels into place and plug in your new Foster Coldroom. With no drainage required, installing your Fast Fit Coldroom couldn't be easier – and so business disruption is kept to an absolute minimum.

- The Fast Fit Coldroom has been designed with an integrated panel-mounted refrigeration system, meaning no complicated installation is required; the front panel of the Coldroom is supplied to you with the refrigeration system already installed and ready to go.
- With single phase electric's the Coldroom can be installed from start to finish in less than half a day, installing your Coldroom couldn't be easier.
- Foster's Fast Fit Coldrooms are available in 15 different sizes (4 to 10 square metre capacities) and in both Refrigerator (+1/+4°C) and Freezer (-18/-21°C) temperature ranges.
- The overall height of the Fast Fit Coldroom is a mere 2.1m, making it ideal for virtually every catering outlet no matter how large or small.
- All rooms come with a 75mm floor, 75mm insulation and white laminate finish.
- A simple to install water-cooled heat-removal system is also available as an option. This allows part of the refrigeration system to be located away from the kitchen, removing heat and noise, important for busy kitchens where heat build up can affect ambients.

"These Coldrooms are ideal for small to medium sized businesses", commented Foster Sales Director John Savage. "They are perfect where space is at a premium – in pubs, colleges, small restaurants and takeaways, for example. Even with limited space and budget, businesses like these can now have the storage capacity of a coldroom."

Of course, Foster also supplies a range of made to measure Coldrooms for customers who require rooms tailor-made to suit their individual needs. This range offers an endless choice of sizes, refrigeration systems, shelving and options.

If you are looking for a compact, no-fuss Fast Fit coldroom at a very competitive price then the new Foster Fast Fit range of packaged Coldrooms from Foster cannot be beaten.
