

## Haier Table Top Mini Fridges and Freezers

We searched high and low to find good quality "real" compressor fridges and freezers to compliment our range, and thankfully came across these units from Haier. The fridge and freezer are matching units, the same size, the same look, and with reversible doors, they can easily sit side-by-side in situations where height is a restriction.

These fridges/freezers are ideal for the office, a small kitchen, the elderly or for a bed-sit environment. They are very quiet in operation, but not silent.

### Haier Table Top Refrigerator HR-60

#### Features

- Compact design.
