

FUSION

Managers/Executive

A perfectly contoured seat and back makes the Fusion FSM2 an extremely comfortable working chair.

Designed with luxury in mind, the FSM2 has smooth leather edges and a breathable mesh centre strip which helps to improve air circulation and the movement of the user.

Dimensions (mm)

Seat Height: 470

Seat Width: 520

Seat Depth: 500

Gas Lift Height Adjustment: 80

Soft touch height and width adjustable armrests provide added comfort whilst a synchronised mechanism at a ratio of 2:1 creates the perfect working position that can be adjusted to the weight of the user.
