

Commercial Dish Washers

CF50DP

The top quality Adler CF50DP undercounter glass/dish washer gives you sparkling results everytime. It has a double skinned construction (reducing noise and saving energy) in high quality brushed stainless steel (AISI 304 18/10) enabling installation in the front of house locations.

The CF50DP is economical in both water and power consumption and comes ready for connection to the water and electrical services.

It incorporates automatic dosers for washing detergent and rinse aid along with special multi-angle washing jets at the top and bottom of the washer cavity ensuring that water is sprayed in all directions, ensuring a most hygienic and super-clean wash.
