

# Cole-Parmer®

## Cole-Parmer® Slide Drying Bench - SW-200

This Slide Drying Bench is used for the safe drying of glass slides after sample mounting in preparation for clearing and staining. The dark surface gives good visibility of samples.

- Up to 50 slides capacity
- The slides can be arranged on the bench in different orientations
- Built-in energy regulator controlling temperature up to 100°C

# Cole-Parmer® Slide Drying Bench - SW-200

Cole-Parmer® SW-200 drying bench aids in the preparation of microscope slides at the specimen mounting stage. It complements both the paraffin wax dispenser and the paraffin wax mounting bath to provide a complete set of paraffin wax sampling equipment for the modern laboratory.

Accepting up to 50 slides, it has the facility for drying slides in different orientations- across the drying support bars, angled from the bars, or flat without the bars.

## Technical Specification

| Specification           | SW-200                    |
|-------------------------|---------------------------|
| Capacity                | Up to 50 slides           |
| Material                | Base and top powdercoated |
| Max Element Temperature | 100°C                     |
| Dimensions (d x w x h)  | 180 x 390 x 95mm          |
| Weight                  | 1.8kg                     |

## Ordering Information

| Description                                | Ordering Number | Series No. | Model No.  | Legacy Sku. |
|--|-----------------|------------|------------|-------------|
| Microscope Slide Warmer/Dryer 230V UK & EU | 48573-06        | SW-200     | SW-200     | MH6616      |
| Microscope Slide Warmer/Dryer 115V US      | 48573-01        | SW-200     | SW-200-115 | MH6616X1    |
