LARGE CAPACITY MULTIPURPOSE INCUBATORS

Design

The exterior is constructed from sheet steel finished in an easy clean powder coated paint. The interior chamber is made from mild steel coated with aluminium (CLAD) with a stainless steel chamber available as an option.

Fitted with fixed shelf runners and removable chrome plated wire grid shelves.

The vertical style units (V) are fitted with single doors, the horizontal style units (H) are fitted with twin doors.

Heating

Heated by Incoloy sheathed elements positioned in the side fan duct for all units except the 9H and 12H which have a base fan duct.

Controls

The control system comprises of a PID Microprocessor Controller with dual displays of set point and actual temperature, which are auto-tuned for each individual unit to optimise the heat up, overshoot and control of the temperature. They also include mains switch with indicator and heat and overheat indicators.

The controller has a 0-99 hour process timer that can be selected for a fixed time period at a required set point plus an 8 segment program with 4 ramp and 4 dwell facility.

The control panels are fitted on the side of each unit except the 9H and 12H, which are fitted in the base.
