WATER BATHS

Design

The exterior is constructed from sheet steel finished in an easy clean powder coated paint. The interior is constructed of stainless steel with a perforated tray covering the heating element.

Heating

Heated by Incoloy sheathed elements positioned in the base of the unit.

Controls

Control is via an easy set thermostat with indicator and an on/off switch.

Options include a PID Microprocessor controller with dual displays of set point and actual temperature, which are auto-tuned for each individual unit to optimise the heat up, overshoot and control of temperature.
