Auto Defrost	✓
Fan Assisted Cooling	✓
Environmentally Friendly Insulation	✓
Eco Friendly Refrigerant	✓
Ammonia Free	✓

Robustly constructed, this **Labcold** refrigerator is designed to provide close temperature control for temperature sensitive medicines.

This 505 litre, large volume Pharmacy Refrigerator is ideal for busy pharmacies and wholesale pharmacists. It comes complete with all the technology required to ensure expensive stock is kept in optimum condition, including features such as integral temperature display and alarm and forced air cooling as advised by Public Health England in Protocol for Ordering, Storing and Handling Vaccines.

Digital Temperature Display

The digital display provides visual information on temperature display, with minimum and maximum temperature display. An audible and visual high and low alarm will sound if temperatures deviate from the correct levels, plus a door open alarm reminds users to close the door after use.

Completely compliant with all the regulations specified by both the Department of Health and the RPS/GPhC this refrigerator is the professional choice for safe temperature controlled volume vaccine and pharmaceutical storage.
