Cubelet Ice maker and ice & water dispenser

Standard Features

- Automatic ice dispensing systems and self-service operations are becoming evermore popular in modern Foodservice concepts.
- They allow customers to cool their drinks as per their own taste, making it easy and preventing any potential sanitary hazards: clear and pure ice bits drop directly into the consumer's glass, with no manipulation.
- Scotsman Ice dispenser TC180 is the Industry benchmark in the ice or ice and water dispensers segment.
- This line, in its different versions, is now available in the "Long Range" version that offers an unprecedented 9 kg in-built bin, keeping the same dimension as the original 5 kg version.
- For those locations where the dimension of the counter are limited, we are offering the "Short" version, whose depth has been reduced by close to 6 cm, allowing for installation on most counters. The capacity of the storage bin will not change though, granting the same amount (5 kg) of Scotsman "Cubelet" super compressed ice.

TC S-L 180 AS

Touch free dispensing model
 - Ice & water configuration
 - Easy clean

TC S-L 180 ASM

Manual version with 2 push buttons
 - Ice & water configuration
 - Easy clean

TC S 180 AS-EVO

Touch free dispensing model
 - Ice only configuration
 - No push buttons in the front
 - Easy clean
 - Specific for self-service use

TC S 180 NW

Manual version with 1 push button only
 - No water
 - Ice only configuration
 - Easy clean
