**High speed magnetic stirrers  
MS-3000, MMS-3000**

## General information.

---

MMS-3000 Magnetic Stirrer is designed for effective stirring of different viscosity liquids.

MMS-3000 is a compact magnetic stirrer with the stainless steel working surface. It provides liquid stirring with the magnetic element rotation speed up to 3000 rpm (max. speed depends on the magnetic element size, stirred volume, viscosity, glassware shape, etc.).

The unit is designed for operation with different size magnetic stirring elements (20-70 mm long). Other size magnetic elements may not provide appropriate operation.

MMS-3000 is equipped with an attachable stand that allows inserting different sensors (temperature, pH etc.) inside the liquid.

Application fields:

|               |   |
|---------------|---|
| Chemistry     | Stirring reaction ingredients during the fine organic synthesis, research in the organic catalysis field, different viscosity chemical reagents dissolving. |
| Biochemistry  | Solutions preparation, dialyze, salt and alcohol sedimentation of macromolecules, gradient forming in the column chromatography, etc.                       |
| Soil science  | Biological and chemical substances and samples extraction, research of the soil and ground chemical and biochemical compounds.                              |
| Biotechnology | Using as a minireactor in the micro-organism cells cultivation, culture medium preparation, titration, etc.   |

- 4.1. **Unpacking.** Remove packing materials carefully and retain them for future shipment or storage of the unit. Examine the unit carefully for any damage incurred during transit. The warranty does not cover in-transit damage. Warranty covers only the units transported in the original package.
- 4.2. **Complete set.** Package contents:
- 4.2.1. MS-3000
- MS-3000, high speed magnetic stirrer ..... 1 pce.
  - Magnetic stirring element ..... 1 pce.
  - External power supply ..... 1 pce.
  - Operating manual, declaration of conformity ..... 1 copy
- 4.2.2. MMS-3000
- MMS-3000, high speed magnetic stirrer ..... 1 pce
  - Magnetic stirring element ..... 1 pce
  - SR-1 attachable stand ..... 1 pce
  - External power supply unit..... 1 pce
  - Operating manual, declaration of conformity..... 1 copy
- 4.3. **Setup.** Place the unit on the horizontal even working surface. Plug the external power supply unit into the 12 V socket at the rear side of the unit.
- 4.4. **Detachable stand installation (MMS-3000).** Remove the screw on the fixing socket at the stirrer back (fig. 1/1) and retain for future use. Screw the part of the stand with the counter-nut into the fixing socket and secure with the counter-nut. Screw in the second part of the stand into the attached first part.

# Specifications

The unit is designed for operation in cold rooms, incubators and closed laboratory rooms at ambient temperature from +4°C to +40°C in a non-condensing atmosphere and maximum relative humidity 80% for temperatures up to 31°C decreasing linearly to 50% relative humidity at 40°C.

Grant is committed to a continuous programme of improvement and reserves the right to alter design and specifications of the equipment without additional notice.

|   | MS-3000          | MMS-3000  |
|---|------------------|-----------|
| Speed control range                         | 0–3000 rpm       |           |
| Maximum stirring volume (H <sub>2</sub> O)  | 5 L              | 20 L      |
| Working surface dimensions                  | 110x110 mm       | Ø160 mm   |
| Working surface material                    | Stainless steel  |           |
| SR-1 detachable stand size                  | —                | Ø8x320 mm |
| Maximum length of magnetic stirring element | 50 mm            | 70 mm     |
| Maximum stirred liquid viscosity            | Up to 1170 mPa*s |           |
| Maximum continuous operation time           | 24 h             |           |

**Note.** Maintain at least a 1 hour long pause between prolonged continuous operations.

|                                     |                                    |               |
|-------------------------------------|------------------------------------|---------------|
| Working current / Power consumption | 220 mA / 2.6 W                     | 250 mA / 3 W  |
