

Concept

The Concept anaerobic workstation's elegant and intuitive design provides powerful solutions for your micro anaerobic workflows in a package that is easy to use and maintain. Rigorously tested to maximize productivity of systemized anaerobic incubation, Baker's mid and large sized chambers bring together a host of features that you can trust, bringing immediate benefits to your busy laboratory.

Concept on the Baker
website

► FEATURES

- Real time measurement and display of oxygen, temperature, and humidity levels
- Direct-hand access using Ezee Sleeve™ port systems., and optional Ezee Cuff for direct gloveless and sleeveless access.
- Long life digital O₂ sensor – only requires changing every 4 years
- Single Plate Entry System for instant insertion and removal of plates.
- Internal HEPA (High Efficiency Particulate Air) filtration as standard to minimize contamination.

Baker – Performance by Ruskinn. Since 1993, we've been working with microbiologists around the world, delivering high performing anaerobic solutions to support their needs. We know how important it is to have high performing equipment you can rely on. That's why Baker is dedicated to delivering products that serve the people who process thousands of important samples every day.

APPLICATION

Concept is ideally suited for a variety of applications including clinical microbiology, human microbe research, biofuels, dental research, environmental testing, food and beverage, and other research areas where obligate anaerobes are cultured.
